Scrum Meeting: March 20th, 2025
- Ben Mast:
  - Three pages of wireframe
  - Collaborated with Samual to create the use-case diagram
  - Helped with Doc during lab
  - Started HTML nav bar
- Ana Manica:
  - Page of wireframe
  - Arranged the set up
  - Helped to communicate in Discord about what work was needed.
  - Took these notes (woo hoo)
- Rane:
  - Github repo
  - Started project board
  - Going to set up some protections
  - Used genAI to draft up some user stories!
  - Action item: Come up with 6 epics so everyone can work on their own.
- Ben:
  - Worked on pal management page
  - Contributed to initial doc for lab 9
  - Work on Epics
- Aisli Steele:
  - Worked on wire frame (login and registration)
  - Look forward to future tasks
- Sammy R:
  - Covered the majority of the use-case diagram
  - Helped to cover bases in the google doc
- Vinay Rajesh Suggests:
  - 6 epics -> One per person
  - 2 or 3 stories per week per person
  - Make sure all our external APIs are workin' smooth!
